

Success Factors for E-Learning Implementation

Prof Dr. Mansor Fadzil

Prof Madya Dr. Zoraini Wati Abas

E-learning Definition

E-learning refers to the use of Internet technologies to deliver a broad array of solutions that enhance knowledge and performance. It is intentionally broad enough to include the related fields of knowledge management, content management and performance support .

(Rosenberg, 2001)

The working definition . . .

*The use of network
and multimedia technologies
to improve the quality of learning
by enabling access to knowledge
and remote resources
for the development of a K-society.*

ROLES AND RESPONSIBILITIES OF ONLINE TUTOR

General Role

Generally, an online tutor is to facilitate an effective virtual classroom discussion sessions. The facilitation is to be done in such a manner such that the personalised learners obtain similar benefits as that obtained by Blended Learning (BL) students from their face-to-face tutorial sessions.

Specific Responsibilities

To enable the above-mentioned general role the following specified activities needs to be performed:

- facilitate, actively and promptly, the myLMS forum discussion. Postings made by learners have to be responded within twenty-four (24) hours;
- reply the learners e-mails within twenty-four (24) hours;
- marks test 1, test 2, mid-semester test and assignments for your personalised students, and undertaking related activities, such as after marking tests and assignments, tutors are required to enter the results of learners into Online Marking Entry System (OMES).

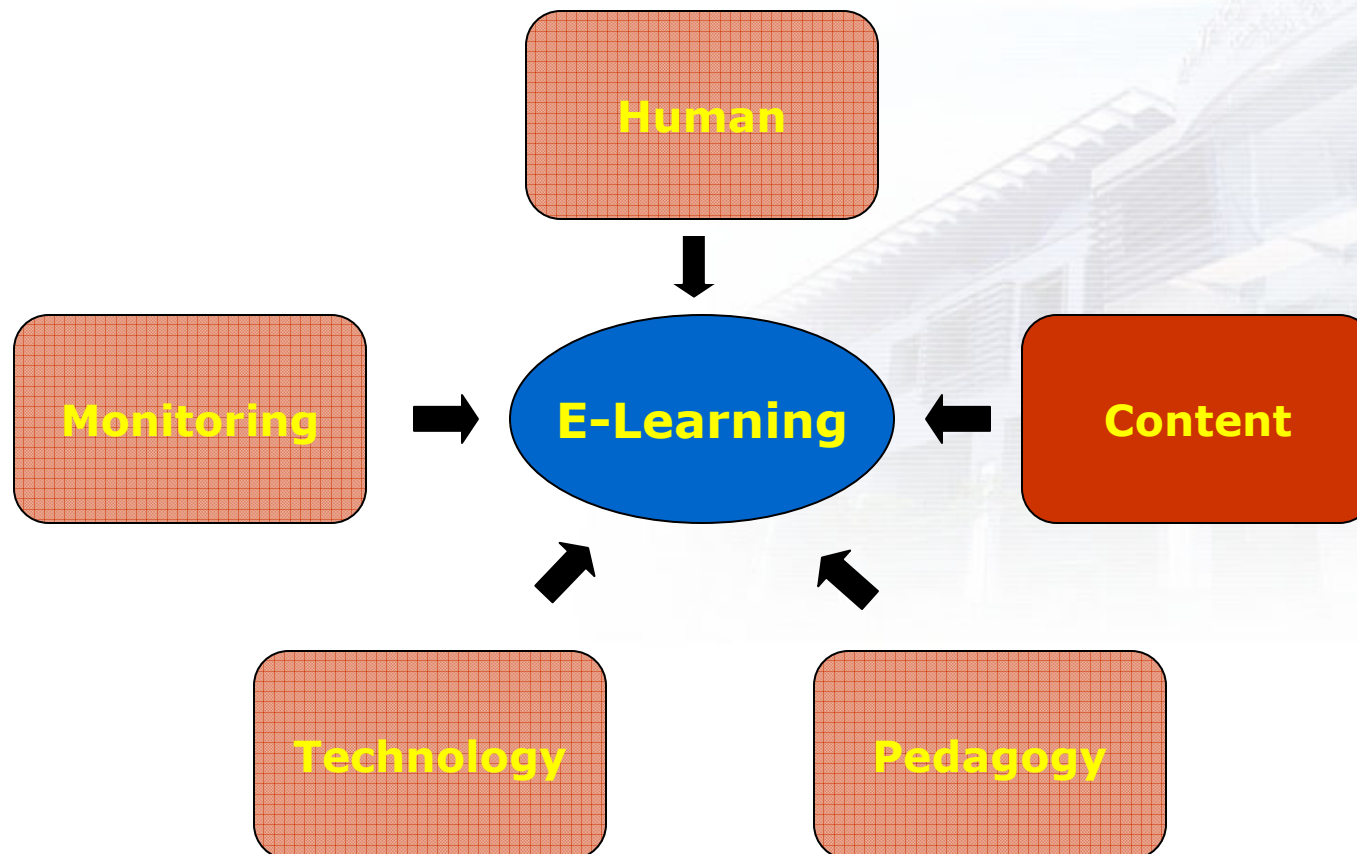

Evaluation Criteria

Category	Description	Points
Frequency of Contributions	Contributions have been regular and varied without long lapses between postings	2
	Learner has been present online but postings have been few and far between; student has been a lurker more than an active contributor	1
	Learner is rarely or never present online	0
Quality of Contributions	High quality contributions focused on task; strong evidence of learner having generated discussion, analysed information, drawn conclusions and helped create a lively debate	3
	Contributions have been focused on the task; some evidence of analysis, sharing and teamwork	2
	Contributions have been minimal with little evidence of sharing and teamwork	1
	Few or no contributions have been made toward the discussion or task	0

Every tutor will award the learner a maximum of 2 points for frequency of contribution and a maximum of 3 points for quality of contributions. Hence, the total will be anywhere from 0 to 5 points (that is, from 0 to 5 percent of total marks for the course).
